

BYCURE

**Product name: Dermal whitening cream**

**Code: R101765**

**Packaging:** Jar, 200 ml

**Class:** Anti blemish face cream

**Function:** Depigmenting action face cream . Multi-step action, technologically advanced formula with a balanced mix of whitening active principles ingredients which act on the different production of melanin stages, for faster and long-lasting results.

**Active principles and their function:**

Glutathione: antioxidant skin protection against damages caused by ultraviolet radiation. Chelation of Fe and Cu ions, it reduces the initial melanogenesis stage

Titanium Dioxide: UV mineral mechanical filter

Alpha hydroxy acid mix (malic acid, glycolic acid, lactic acid, citric acid): action carrier and progressive exfoliating action. It promotes skin renewal, and the existing hyperpigmentation dischromias reduction.

Arbutus unedo extract : whitening action thanks to the high percentage of arbutin contained. It acts on the central phase of melanin production, actively reducing the activity of the tyrosinase enzyme

Phyllanthus emblica extract: anti-reductase action, it acts effectively on the final stage of melanogenesis, actively reducing the pre-melanin formation inside the melanocytes

Ascorbyl tetra-isopalmitato: stable complex enhanced by vitamin c. It acts on the post-synthesis of melanogenesis by inhibiting the migration of melanocytes to the skin surface; it also encourages cell turnover, actively reducing the size of hyperpigmentation present

**Skin type treated:** hyperpigmentated skins (photoaging, sun-exposed scar)

**INCI:**

aqua, glycerin, C12-20 acid PEG-8 ester, cetearyl ethylhexanoate, propylene glycol, isostearyl avocadate, phyllanthus emblica extract, sodium lactate, sodium malate, sodium PCA, sodium citrate, sodium glycolate, lactic acid, malic acid, glycolic acid, citric acid, urea, glucosamine HCl, algae, faex extract, , citrus medica limonum extract, cucumis sativus extract, arbutus unedo extract, glycyrrhiza glabra extract, oryza sativa extract, disodium EDTA, ethylhexyl methoxycinnamate, titanium dioxide, mica, glutathione, ascorbyl tetraisopalmitate, kojic acid, isopropyl isostearate, tocopheryl acetate, dimethicone, triethanolamine, carbomer, cyclopentasiloxane, butyl

**BYCURE**

methoxydibenzoylmethane, sodium polyacrylate, isopropyl myristate, nylon-6, triticum vulgare germ oil, parfum, hexyl cinnamal, benzyl salicylate, butylphenyl methylpropional, linalool, hydroxyisohexyl 3-cyclohexene carboxaldehyde, benzyl benzoate, citral, eugenol, BHT, phenoxyethanol, ethylhexylglycerin
